- ✦ Easy one-step door release
- ✦ Universal fit
- ✦ Sure-close release slot
- ✦ Adjustable closing speed
- ✦ Extra split pin
- ✦ Suits fly, barrier and security doors

1 Fitting Instructions

Jamb Bracket
Fasten the Jamb Bracket 12-25mm from the inside of the door face on the hinge side and 25mm down from the top of the door jamb, with the 25mm self tapping screws, as shown.

3 Door Bracket
Insert the Door Bracket onto the Door Closer's foot. Close & latch the door. Swing the Closer onto the door & level. If the Door Bracket is facing away from the door, rotate the End Cap & Door Bracket 180° **anti-clockwise** until flush with the door.

5 Closing Speed
Open the door to unlatch the Hold-Open Catch. Test the door closing speed. Use a philips Screwdriver on the Valve Screw to adjust the door closing speed.

2 Closer Setting
Connect the Rod to the Jamb Bracket using the Split Pin. **DON'T** deform the Split Pin. Tension by pulling the unit until flush with the pinch in the Rod, as shown. Press the Hold-Open Catch to lock the Rod in place.

4 Door Bracket
In the centre of Screw Slot A, fix the Bracket with a 19mm screw. Remove the Split Pin & closer & fasten the other 19mm screw into Slot B. Refit the Closer and Split Pin. Spread apart the Split Pin.

Pack Contents
